

Supervision

1) In or around the school building (before, during and after school):

Each campus has its own supervision schedule that is posted electronically. Staff members are assigned to specific areas for inside or outside duty. Major disciplinary incidents are dealt with by the administration.

Should first aid be required the necessary steps are taken to address the injury. Accident reports are filled out by the classroom or duty teacher and filed in the office.

2) While away from the school on field trips:

In the planning stages of medium to high risk field trips, parents will receive information letters as well as permission slips. We follow all appropriate protocols as outlined in the Youth Safe Outdoors: Offsite Safety for BC Schools binder.
